

## Adams & Moore Meet Students at Wilmington Academy

19 November 2019

Alan Bolton from Adams & Moore visited Wilmington Academy on 19 November to meet students to talk about their future in business and finance.

With the somewhat negative press we see on students and an education system viewed as exam factories, it was good to see staff and students really engaged on what businesses are looking for in our future work force.

Please contact us to find out how we can help you achieve your goals.
